RICHÁRD ESZES

Senior Software Developer • Backend Architecture

Email: richard@eszes.me | **Phone:** +36 30 533 9792 | **Location:** Pécs, Hungary
LinkedIn: linkedin.com/in/richardeszes | **Portfolio:** https://eszes.me

PROFESSIONAL SUMMARY

Senior software developer with over 10 years of professional experience specializing in robust backend architectures, industrial Manufacturing Execution Systems (MES), and high-availability web platforms (PHP, Laravel, Yii2, MySQL, PostgreSQL). Extensive background delivering mission-critical applications under strict regulatory compliance, including pharmaceutical QA systems aligned with GMP/GxP standards and tamper-evident audit trails. Strong advocate of **Domain-Driven Design (DDD)**, SOLID principles, and automated testing (PHPUnit, Cypress). Combines deep engineering capability with strategic business acumen, currently pursuing a **BSc in Business Administration and Management** at the University of Pécs.

SKILLS & TECHNOLOGY STACK

Backend & Architecture:	PHP 8+, **Laravel**, **Domain-Driven Design (DDD)**, Yii2, RESTful API Design, SOLID Principles, Active Directory Auth
Databases & DevOps:	**MySQL**, **PostgreSQL**, **Docker**, Database Normalization & Optimization, Migrations, Git, GitLab CI/CD, Linux
AI & Developer Tooling:	**AI Coding Agents**, **Agentic Workflows**, **Spec-Driven Development (SDD)**, GitHub Spec-Kit, Prompt Engineering
Testing & Quality:	**Cypress (E2E Testing)**, **GMP / GxP Compliance**, **Agile / Scrum**, PHPUnit (Unit Testing), Code Reviews
Frontend & Mobile:	**Ionic Framework (Mobile Development)**, **SASS / SCSS**, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, WordPress
Business & Management:	Corporate Finance, Process Management, Project Leadership, Business Communication, HR Management

WORK EXPERIENCE

Software Developer — Contrall ISS ZRt. (formerly Contrall Ipari Informatikai Kft.)

Jan 2022 – Present | Pécs, Hungary

- **Industrial MES Engineering:** Develop and maintain a Yii2-based Manufacturing Execution System (MES) helping machinery and metalworking SMEs digitize job tracking, machine cycle times, operator workflows, and facility access control.
- **Pharma QA & Compliance System:** Engineered an internal quality assurance platform for a pharmaceutical plant adhering to strict **GMP/GxP standards**, implementing tamper-evident electronic audit trails and Active Directory authentication.
- **Automated Testing & CI/CD:** Established test coverage using **PHPUnit** and **Cypress** (E2E workflows); streamlined deployments using Docker containerization and GitLab CI pipelines.
- **Database Architecture:** Designed and optimized relational schemas in MySQL and PostgreSQL, enforcing strict normalization, data integrity, and index tuning.

Technologies: Yii2, Laravel, PHP 8+, MySQL, PostgreSQL, Docker, Cypress, PHPUnit, Active Directory, GitLab CI

PHP Developer — Arteries Studio Kft.

2013 – Dec 2021 (~9 yrs) | Pécs, Hungary

- **Enterprise Web Publishing:** Engineered a bespoke, lightweight WordPress theme and tailored plugin architecture for the Hungarian thought-leadership blog and knowledge repository of a global **Big Four advisory firm**.
- **Custom Web & API Development:** Architected backend systems on Laravel and bespoke PHP MVC engines for client webshops, high-converting landing pages, and RESTful APIs serving mobile applications.
- **Third-Party Integrations:** Integrated external ERP, CRM, payment gateway, and billing APIs for dozens of domestic SME clients, automating invoice generation and inventory synchronization.
- **Full-Stack Delivery:** Implemented responsive frontend interfaces using JavaScript (ES6+), SASS/SCSS, and HTML5 across desktop and mobile devices.

Technologies: PHP, Laravel, WordPress, MySQL, REST APIs, JavaScript, SASS, Bootstrap, Git

SELECTED KEY PROJECTS & DELIVERABLES

Next-Gen Manufacturing Execution System (MES 2.0) | **Laravel, DDD, PostgreSQL, Docker, REST API, AI, Bespoke UI**
Modern re-architecture of the manufacturing execution platform using Domain-Driven Design (DDD) principles. Comprehensive warehousing, real-time production tracking, sales lifecycle, and REST APIs.

Pharmaceutical QA & Compliance System | **Laravel, PostgreSQL, Active Directory, Audit Trail, Docker**
Mission-critical internal QA and workflow validation platform for a pharmaceutical manufacturing plant. Compliant with strict GMP/GxP standards with tamper-evident audit logs and AD role management.

ISP CRM & Customer Portal System | **Laravel, Bootstrap, Docker, MySQL, REST API, Satellite API**
End-to-end CRM and customer self-service portal for an Internet Service Provider. Lead pipeline tracking, automated contract generation, and REST API integration with an external satellite provider for live provisioning.

Manufacturing Execution System (MES) | **Yii2, PHP, MySQL, Cypress, Bootstrap, PHPUnit**
Industrial production tracking, machine cycle time metrics, operator terminal interfaces, sales workflows, and facility access control tailored for machinery and metalworking SME partners.

Big Four Advisory Firm — Professional Blog | **WordPress, PHP, SASS, JavaScript**
Bespoke theme and plugin architecture engineered for the official knowledge base and business blog of a global Big Four advisory firm, optimized for editorial agility and high traffic.

Custom SME Platforms & E-Commerce Webshops | **PHP, Custom MVC, Laravel, MySQL, REST API**
Dozens of custom web applications, B2B/B2C online stores, and third-party ERP/billing API synchronizations delivered to automate business operations for domestic SMEs.

EDUCATION & ACADEMIC BACKGROUND

BSc in Business Administration and Management — University of Pécs, Faculty of Business and Economics (PTE KTK) 2026 – Present (In Progress)
Undergraduate university degree program. Strategic management, corporate finance, controlling, and decision-support systems. ISCED level 6 • EQF level 6

Business Administration Assistant — University of Pécs, Faculty of Business and Economics (PTE KTK) 2021 – 2023
4-semester higher vocational training (FOSZK). Corporate economics, financial management, and business administration. ISCED level 5 • EQF level 5

Web Developer — Lia Foundation Vocational School, Budapest 2011 – 2013
4-semester post-secondary vocational qualification. Relational database management, web standards, client- and server-side software development. ISCED level 4 • EQF level 4/5

ADDITIONAL TRAINING, LANGUAGES & INTERESTS

Training:	**Digital Finance Training (2022)** — University of Pécs, Faculty of Business and Economics (PTE KTK)
Languages:	**Hungarian:** Native | **English:** Upper-Intermediate B2 (Euroexam, 2025)
Interests:	Technology trends & digital tools, Personal finance & economics, Astronomy, Psychology, Foreign affairs, Photography
